

IRISH ACRES FARM

8400 N. US Hwy. 441 • Ocala, Florida 34475 • (904) 732-0013 • FAX 904-732-4920

Endorsement: The H Ray device and method of treatment has been used at Irish Acres Farm in Ocala, Florida on a regular basis. The treatments are non-invasive and brief. The horses treated respond rapidly and are back to training in record time with "down time" shortened considerably. The healing response is consistent, horse to horse. This device appears to cause an immune system response and therefore can be used for many ailments, diseases and disorders. The H Ray promotes healing of the suspensory ligament at an accelerated rate and the treatment holds when the horse goes "back-to-track". The same is true for hematomas, infections and other lameness problems. I personally recommend the H Ray device and method of treatment. The H Ray is superior to any other device of its type on the market today.

A handwritten signature in black ink that reads "Noel Hickey". The signature is written in a cursive style and is positioned above the typed name.

Noel Hickey, Owner
Irish Acres Farm
Ocala, Florida

August 24, 1999

Please Note:

The name "H Ray" referred to in this letter from Irish Acres was the Original name given to the Ig2000 Medical Device. The "H Ray" name meant Healing Ray.
